

ADVANCED

Implants & Periodontics

October 4th

Topic: All-on 4, 5, 6: Immediate Loading for the Full Arch Fixed Porcelain Restorations

Speaker: Dr. Samantha Chou, Prosthodontist

Course description:

This treatment concept is a proven technique that is here to stay. Incorporating this technique into your office will put you at the forefront of clinical practices. Dr. Samantha Chou will share her unique collaborative experience with you and teach you champion techniques that will demystify and simplify the All-on-4 surgical and prosthetic procedures. Using a variety of multimedia modalities as well as a clinically relevant, hands-on prosthetic simulation, she will show you how you can treat these patients with the efficiency and profitability of a Dental Implant Center. Current concepts in fixed and removable implant prosthetics will be addressed as well as treatment planning and scheduling, final prosthesis, case management and complications, and how to present treatment options to patients.

Learning Objectives:

- Indications for the All-on-4 and patient selection
- Clinical and radiographic evaluations
- Developing a Surgical-Prosthetic Blueprint for success
- Laboratory procedures
- Prosthetic procedures for the immediate load prosthesis using hands-on simulation?
- Post-operative protocols
- Managing post-operative prosthetic complications

More about the speaker:

Samantha Chou, DMD, is an expert on a variety of dental and surgical treatments for complicated oral conditions. Her specialization is in oral and maxillofacial prosthodontics. She uses current techniques and industry breakthroughs for oral and maxillofacial rehabilitation. Dr. Chou is able to perform oral surgery, dental implant placement and prosthetics, cosmetic dentistry, and full mouth reconstruction.

Her clinical training and academic research focuses on advances in the following areas: bone grafting, sinus/ridge augmentations, and implant placements, incorporating various CAD-CAM technologies. Her research has been presented at national meetings of the [American Academy of Fixed Prosthodontics](#). She is also a faculty member at the [University of Chicago](#) and a spokesperson for the American College of Prosthodontist.

Currently, Dr. Chou uses comprehensive and elaborate treatment techniques, along with strategies supported by research evidence. This is done to address patients esthetic concerns, while improving their overall oral health. Dr. Chou's career goals include helping patients gain a new sense of confidence and the peace of mind that a beautiful smile can give.
